### PROFESSIONAL SUMMARY

I am a Frontend developer with 1 month of internship experience specializing in building web and mobile applications with technologies such as react.js, typescript and efficient system development. Keep to gain partical experience through real world projects and contribute to innovative solutions dedicated to continuous skill improvement and adapting to new technologies!

### SKILLS

**Frontend:** React.js, javascript (ES6+), typescript, HTML, CSS3

**State Management:** Redux, Redux Toolkit

**Ui Libraries:** Tailwind CSS

**DevOps & Tools:** git, GitHub,vercel

### PROJECTS

#### Cloud QR Attendance Management System

Major project Apr 2026

**Tech Stack:** React.js, JavaScript, Firebase, HTML5, CSS3

- Developed a cloud-based QR Attendance Management System for digital attendance tracking.
- Built secure user authentication and role-based access using Firebase Authentication.
- Integrated Cloud Firestore to store and synchronize attendance records in real time.
- Implemented QR code-based attendance marking to reduce manual attendance processes.
- Designed a responsive and reusable React component architecture for a seamless user experience.
- Created an admin dashboard to manage users and monitor attendance records.
- Deployed the application on Firebase Hosting for secure and reliable cloud access.
- Optimized the application for fast performance and cross-device compatibility.
- QRCode Attendance System

#### QR-Buspass portal web

Mini project Dec 2025

**Tech Stack:** HTML5, CSS3, JavaScript, LocalStorage, Git & GitHub

- Developed a QR-based Bus Pass Portal for managing student bus pass applications.
- Built separate authentication modules for Admin and Student with role-based access.
- Designed a responsive dashboard for student registration and application management.
- Implemented a student registration system to submit bus pass requests.
- Created an admin panel to review, approve, or reject student applications.
- Enabled automatic QR code generation for approved bus pass requests.
- Added functionality to download the generated QR bus pass for verification and use.
- Organized the project using modular JavaScript and version-controlled the code with Git & GitHub.

#### Admin Dashboard

project july 2026

**Tech Stack:** HTML5, CSS3, JavaScript, react.js, Git & GitHub

- Developed a responsive Admin Dashboard to manage users through a clean and user-friendly interface.
- Implemented secure user authentication using Firebase Authentication.
- Built complete CRUD operations to add, edit, update, and delete user records.
- Integrated Firebase Firestore for real-time data storage and retrieval.
- Designed reusable React components and a responsive layout for better maintainability and cross-device compatibility.

### EDUCATION

**Master of computer applications (MCA), Bundelkhand University**

6/2024 - 7/2026 | Jhansi, India

Percentage - 70%

**Bachelor of computer applications(BCA hons), Bundelkhand University**

6/2019 - 7/2023 | Jhansi, India

Percentage - 60%

**Senior Secondary (Class XII), SS INTER COLLEGE SARILA**

4/2018 - 3/2019 | Hamirpur, India

Percentage - 58%

**Secondary (Class X), SS INTER COLLEGE SARILA**

7/2017 - 3/2018 | Hamirpur, India

Percentage - 78%
